Snyder Research Farm
140 Locust Grove Rd., Pittstown NJ**

**Monday, October 12, 2009
8:30 AM – 3:00 PM**

RUTGERS
New Jersey Agricultural
Experiment Station

RUTGERS
School of Environmental
and Biological Sciences

About the Program

Participate in an experience to help you make better future judgments about selecting and investing in equipment necessary to enter profitable smaller-scale or part-time farming.

Equipment Demonstrations

Many sources provide educational information for small-scale farming. This training provides a practical comprehensive review of equipment, views of equipment, and demonstrates the varieties of equipment used in today's successful small-scale farming operations. See equipment demonstrated under actual farming conditions.

"Real World" Examples

This program will allow small or beginning farmers to make informed decisions about equipment selection, purchase and use. Learn from the experts who use this equipment every day both in research trials and on their own farms. This event will focus on money, time, value, safety, and convenience for small-scale part-time farmers. Are you choosing the right equipment for your small farm?

Topics Include:

- ✓ Selecting Appropriate Small Farm Tractors
- ✓ Choosing the proper Tillage Equipment
- ✓ Choosing Fertilizer and Lime Spreaders
- ✓ Selecting Planting Equipment
- ✓ Irrigation Selection and Management
- ✓ Choosing the Proper Spray Equipment for Your Farm
- ✓ Selecting Crop Cultivation Equipment
- ✓ Choosing the Proper Hay and Forage Equipment for Small Farms
- ✓ Review NJ Pesticide regulations
